

Good Day to You,

We are now at the start point of the FIFA - World Cup and are looking forward to the Global Exposure that South Africa will benefit from with World awareness over the next four weeks of Intense Media coverage.

The future Tourism prospects at large will have direct exposure to the magnificence of the Country and what is on offer at highly affordable rates in comparison to most other Tourism options Internationally. This will be brought to life right into the Living room of most Fans and Family over the next 4 weeks.

At the recent Indaba we attended in Durban the feedback on expectations was very positive in particular the expected inflow of Fans, Press and Dignitaries.

It is anticipated that 4 out of 5 Visitors to South Africa will come to Cape Town and our Wine lands region both during the World Cup events and the post period after the Final game has been played. We will be there to welcome them.

Kingna Lodge is only two hours drive from the Greenpoint Stadium in Cape Town and we have so much to offer Guests as you will note on our Web site @ [www.kingnalodge.co.za](http://www.kingnalodge.co.za) + [www.jjadventures.co.za](http://www.jjadventures.co.za)

Please bear us in mind when next you have an enquiry from a client to the Cape Winelands that they can enjoy a very special experience at Kingna Lodge. This will be a highlight of their visit to our magnificent part of the South African Collage and History.

We look forward to having the opportunity to meet your expectations in every respect so please stay in touch.

With Kind Regards,

John & Joy Lewer.
